

In the Claims

Please cancel claims 2, 3, 11, 12, 15, 17, 18, and 23.

Please amend the claims as follows:

1 1. (Amended) A method of displaying information relating to a workflow
2 comprising the steps of:
3 executing the workflow;
4 gathering statistical information relating to the execution of the workflow; [and]
5 [displaying the gathered information;]
6 displaying a workflow diagram; and
7 overlaying the gathered information over the workflow diagram, wherein the overlayed
8 information indicates workflow statistics for various steps displayed in the
9 workflow diagram.

1 4. (Amended) The method of claim 1 [3], wherein the overlayed information
2 indicates the number of times a certain step was executed.

1 5. (Amended) The method of claim 1, further comprising the step[s] of:
2 [displaying a workflow diagram; and]
3 selectively overlaying the gathered information over the workflow diagram.

1 9. (Amended) A workflow system comprising:
2 a workflow server engine for executing workflows;
3 a display device for displaying workflow diagrams; and
4 an overlay data provider for providing statistical information relating to an executing
5 workflow to be overlaid over a workflow diagram displayed on the display
6 device [the display].

1 13. (Amended) A method of collecting information relating to a workflow comprising
2 the steps of:
3 executing the workflow; [and]
4 collecting statistical information relating to the execution of the workflow;
5 displaying a workflow diagram of the workflow being executed; and
6 overlaid the statistical information on the workflow diagram.

1 16. (Amended) The method of claim 13, [14] wherein the collected statistical
2 information includes the number of times a step in the workflow is executed.

1 19. (Amended) The method of claim 13, [14] wherein the collected statistical
2 information includes the execution time of one or more steps.

1 20. (Amended) The method of claim 13, [14] wherein the collected statistical
2 information includes the number of exceptions encountered during execution of the
3 workflow.

1 21. (Amended) The method of claim 13 [14] wherein the collected statistical
2 information is displayed as a raw number.

AC
1 22. (Amended) The method of claim 13, [14] wherein the collected statistical
2 information is displayed as a percentage.

Please insert the following new claims:
